

The Anti-Cruelty Society
Presents

Help! My Family Is Having A Baby!

Saturday May 17th 2008 1p.m. to 2:30 p.m.

Are you adding a baby to a busy household that already includes your beloved dog or cat? Before the happy day arrives, learn about the common and sometimes hidden traps and pitfalls encountered by expanding families. Janice Lynn Triptow, JD, CPDT, CDBC of the ACS School of Dog Training, will discuss how a family and their pet can prepare for the smooth arrival of a new baby and how to identify and address issues which arise after the baby's arrival. With an emphasis on dogs, in both lecture and question and answer format, Janice will cover safe practices for identifying problem behaviors, minimizing the likelihood of development of such behaviors and what to do when they occur.

The lecture is free of charge. It will be held in The Anti-Cruelty Education and Training Center. Enter from 169 W. Grand Avenue. Free parking is available in the Anti-Cruelty Society parking garage on a first come first served basis. Enter from Wells St. **Pre-registration is required.** To register call Tammie Bouschor at (312) 644-8338 ext. 344 or e-mail tbouschor@anticruelty.org. Please include your full name, day time telephone number and the name of the lecture that you are registering for.
